21. Describe how the daily expenses for lodging, meals, and other expenses provided to trip participants compares to the maximum per diem rates for official Federal Government travel:

The hotels for Tuesday and Wednesday night are at the government rate of \$93.

The hotel for Monday night is at the rate of \$127 (the same as for last year's Tour). It should be noted that we hold the Tour each year during the week of the Iowa State Fair. The Fair represents an unparalleled opportunity to view a number of renewable fuels and agricultural exhibits in one location and to discuss the latest trends, research and practices with industry experts and Iowa's highest elected officials. However, the Fair attracts a large number of visitors to the city and area hotels sell out and charge their highest rates of the year. In addition, between congressional staff, Administration participants, and a handful of sponsoring organization staff, the Tour requires a room block of 40+ rooms. The typical per diem rate listed for Des Moines does not take into account the Fair and, just as important, that securing a 40+ room block can be difficult with the typical hotels in Des Moines. IRFA searched extensively in the Des Moines area for an affordable room block on August 13th. The Prairie Meadows Hotel listed in Attachment G was the best deal we could find that could accommodate a group of our size. While the rate is higher than normal due to the fair, we were only able to get this good of rate because we hold another event at the hotel each January so they were willing to give us a good deal (considering the fair).

The estimated food costs are below the government per diem.

Even with the challenges of the Monday night hotel due to the fair, our estimated combined lodging and meal expenses are below the government per diem for the duration of the Tour.
